**V. Questions** (answer **one** of the following for 55% of the exam grade; ca. 1500 words, 2000 max)

1. Discuss the characteristics of the modern German state in the early 20th century, especially with regard to the causes of World War I.
2. Discuss the events that brought World War I to an end, including how they affected the stability of the postwar state (the Weimar Republic). What role did economic factors play?
3. Discuss German electoral politics in the 1920s and early 1930s. Name and characterize the major political parties and leading politicians. What role did the Reich President play?
4. Trace the key events in Hitler's accession to power, with specific dates, and stating why each of them was important.
5. Outline the development of the Nazi concentration and extermination camp system, explaining what its chief functions were during which periods of time in and which regions. Include the role that the so-called euthanasia program played in that development. Give specific examples.
6. Discuss the evolution of persecution of "non-Aryan" and social outsider groups in Nazi Germany. What were the major laws and events in this development? How did the treatment of the various groups differ from one another?
7. Outline Hitler's major foreign policy goals, summarizing the chronology of events that reversed the terms of the Treaty of Versailles and began World War II, and the major turning points of the war. For each, explain why it was significant.
8. Discuss the variety of responses to Nazi repression and persecution. How did which groups collaborate or resist? What motivated them? Include groups both within Germany and in German-occupied countries.
